## Our church

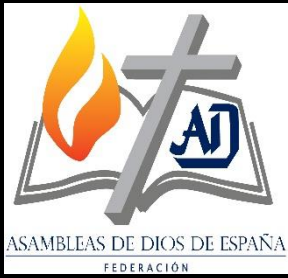

God has given me the great privilege of participating in our church planting in Carmona, and also be pastoring for over 14 years. In Carmona God has blessed me with two wonderful daughters, Miriam and Rachel, 9 and 5 years respectively. \* (data from 2014)

The size of the churches in Spain in general and Carmona in particular, is very small, and therefore the ministry had always supported by my secular job.

But God has been speaking to us and taking a decision: The work is great and we are also working in a hostile terrain, little seed, so we can not build a great work with the limitations of secular work.

Therefore, in early 2013 we decided to take steps of faith towards full time. This is allowing us to enjoy greater freedom to organize and mobilize church activities. And although we do not have what we need for the support, we trust that God will finish its work.

# Where we are

Carmona is the oldest European town. It is located 15 minutes from Seville and 10 minutes from Seville International Airport. Around Carmona we are

surrounded by municipalities that have no evangelical churches, not even a single believer, and God is telling us that IS THE TIME to go and plant, bringing the gospel to those places where it has never preached the word of God.

# Development of vision

So then faith cometh by hearing

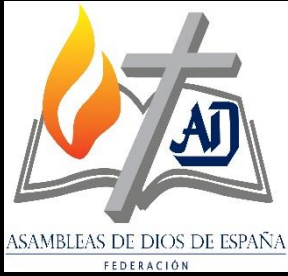

how shall they hear without a preacher?

how shall they preach, except they be sent?

**Romans 10:14-17**

How then shall they call on him in whom they have not believed? and how shall they believe in him of whom they have not heard? and how shall they hear without a preacher? And how shall they preach, except they be sent? as it is written, How beautiful are the feet of them that preach the gospel of peace, and bring glad tidings of good things! [...] So then faith cometh by hearing, and hearing by the word of God.

hearing

## What have you heard Spain?

In the **last 500 years** Spain has enjoyed only **35 years of religious freedom** .... If faith comes by hearing, how much thought has been planted in our country in the last 500 years?

If we add that **Spain was the victim of an Inquisition** that devastated the first buds of faith began to spread through the Protestant Reformation, we can conclude that **Spain is a land that needs to be planted.**

## Spiritual Coverage

We need intercessors networks covering us in prayer as we walked in municipalities dominated by the devil, for centuries

## Economic Coverage

Domestic work is not enough capacity, because the growth is still very small, the average is 50 believers church. Also Spain is going through a very long and deep economic crisis.

We can not ship without holding economically
